REPORT OF HEALTH OFFICER

No serious epidemic of contagious diseases occurred during 1917. Diphteria and Scarlet Fever were not reported as occurring in a single instance. Scattered cases of Measles and Whooping Cough occurred at various times, and were duly cared for.

Three households applied for license to board infant and after inspection were referred to State Board of Charities for license.

One well used as a source of drinking water was found unfit for that purpose and its use discontinued.

SCHOOL WARRANT

STATE OF NEW HAMPSHIRE

To the inhabitants of the School district in the town of Londonderry, qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said District on the Sixteenth day of March 1918, at two o'clock in the afternoon, to act upon the following subjects:

- 1 To choose a Moderator for the coming year.
- 2 To choose a clerk for the ensuing year.
- 3 To choose a member of the School Board for the ensuing three years.
- 4 To choose a Treasurer for the ensuing year.
- 5 To hear the reports of Agents, Auditors, Committees or Officers heretofore chosen, and pass any vote relating thereto.
- 6 To choose Agents, Auditors and Committees in relation to any subject embraced in this Warrant.
- 7 To see how much money the District will vote to raise and appropriate for the support of schools.
- 8 To see how much money the District will vote to raise and appropriate for the repair of school buildings.
- 9 To see if the School District will vote to withdraw from the Supervisory District.

10 To transact any other business that may legally come before said meeting, and to raise and appropriate money for the same.

Given under our hands at said Londonderry, this
twenty eighth day of February 1918.

A true copy of warrant --Attest.

SUPERINTENDENT'S REPORT.

To the Londonderry School Board:

I herewith submit my annual report on the progress of the schools for the past year, together with some suggestions relative to their future administration.

The schools closed in June with the graduation of 14 from the eighth grades in the various schools. Most of these entered the Academy in the Fall.

The schools opened in September with three new teachers- Miss Ida E. McNiff at No. 1, Miss Kathleen Ryan at No. 2 and Miss Lorraine A. Tardiff at No. 3. All of these were Normal graduates. In January, Miss Tardiff was offered a larger school and more pay elsewhere, and she was released that she might accept this offer. Miss Rosamond Gens, a graduate of the Lowell Normal school, was secured to take her place. Thus the changes have been rather fewer than usual, and the consequent interruptions have been less. All of the teachers now qualify for the state aid of two dollars a week given on account of approved teachers. The town has received from the State on this account or the last year \$580, and next year will receive still more, nearly or quite the maximum for our school year. We have some good teachers, and their positions should be made more attractive financially and otherwise, if possible, that they may be retained. In this way the work will be greatly strengthened, and a measure of justice will be done the teachers.

The attendance, particularly in the schools where frequent changes of teachers have occurred, is far from satisfactory. To be sure there has been a good deal of severe weather for two winters, but that has not been sufficient to explain, much less excuse, the great bulk of absences in these schools. There are always some who can be in school every day, and generally speaking, the others could be there just as well if they had the same home influence back of them. Parents should remember two things, in connection with this matter, namely that their children cannot do the work if they are not in school, and that the law holds the parents responsible and subject to a fine if they allow their children to remain out of school. In general parents are anxious not only to comply with the law, but to give their children the benefits which come from regular attendance, and in so doing cultivate in them habits of regularity and reliability. Those who neglect to see that their children are in school every day possible are failing in their duties as parents and as citizens. It is hoped that there may be a marked improvement in this matter in a few cases.

The last legislature changed the time for closing the fiscal year from Feb. 15 to Aug. 31, and consequently there will be a deficit at that time unless an appropriation be made at the next annual meeting to provide for the current expenses from Feb. 15 to Aug. 31. There should also be appropriated at that meeting money for the year ending Aug. 31, 1919. It may be advisable to appropriate a less amount than will be required to carry the schools to Aug. 31, 1919, and distribute the burden of extra taxation over two or more years. In any event, more money should be appro-

priated than is required for one year. Careful consideration should be given the matter of appropriations that the schools may not suffer from failure to appropriate an amount necessary to run the desired time. We need a longer school year rather than a shorter one. Needed repairs and improvements should be provided for. During the present year but little has been done in these directions because of lack of money.

The unusual demands caused by the war must be met, but we must not neglect the fundamental work of the elementary schools. We must not teach less in order to find time for these special activities, but make better use of our time that we may have opportunity to do those things demanded by the present crisis. The children did well last year in the matter of gardens, and their formal school work did not suffer because of that fact. The food situation is much more acute this year, and it is desirable that every child have a garden of real value. This work can be made, and just as far as possible must be made, real educational work. For this reason, as well as for the substantial results in food products, it is hoped that parents will encourage, and aid if necessary, the garden work of the children this Spring and during the Summer.

I feel that the general work of the schools is being done rather better than ever before. This is largely attributable to the fact that more than half of the teachers in town have held their present positions for two or more consecutive years. This has resulted in better attendance and in more logical development of the work, and hence better results. And fortunately our newer teachers are doing unusually well.

Some of the more important of the statistics reported to the State Department at the close of the last school year are given following this report.

While there are abundant opportunities to make improvements in our schools, we may feel some satisfaction over the progress that has been made in the last few years and the prospect of further progress in the future. That they may be kept up to a high standard, and that standard may be raised still higher, is the earnest desire of your superintendent, and to this end he asks the co-operation of all.

I wish to thank the members of the School Board for the liberal policy that has been pursued, and earnest co-operation in the year's work.

Respectfully Submitted,

CHARLES W. CUTTS,

Superintendent of Schools

REPORT OF SCHOOL BOARD

Your school board organized with Hattie T. Colburn as chairman, Rose L. Condon, secretary, and Norman F. Watts, committee on supplies.

We would call your attention to an amendment to the Public Statutes by the last General Court: "The fiscal year of town and special school districts, beginning Feb. 16, 1917, shall end Aug. 31, 1918, and thereafter the fiscal and scholastic year shall end Aug. 31, annually."

It was suggested by the Department of Public Instruction, that a report be made of the finances to date of meeting, but as the year will not close until Aug. 31, the annual financial report cannot be made before that date.

In making our report we have followed these instructions, and the accounts will be audited at the close of the fiscal year.

We would again call your attention to the increasing amount which must be paid for tuition.

In 1912, this item, including Goff's Falls rebate was \$1,235.68; this last year, the amount paid was \$2,201.12.

At the present time, ten pupils are attending school at Derry and we are also paying our proportionate part of the expense of maintaining the school in District No. 3.

In September, the tuition of Pinkerton Academy was increased to \$55 per year.

In 1914 it was voted in the district school meeting that the superintendent be authorized to hire the teachers and buy the supplies.

In the our years preceeding this, the sum of \$1,011.64 had been expended for text books and supplies; in the four years following, the amount was \$505.14, a saving of over \$500. This shows the careful buying and distribution on the part of our superintendent.

The increase in our teachers' salaries has been more than met by the amount received from the state for qualified teachers.

This year, the school rooms in districts No. 3 and 5 have been painted, and in No. 5 slate boards are to be installed. Part of the purchase money has been earned by the pupils.

In district No. 4, a school library has been started with funds, raised by the children. This school also helped to purchase its slate boards.

In one district over 1,500 moth nests were collected and burned during the season.

In district No. 7, a Victrola has been purchased, and the Parent-Teacher Association contributed the money earned by cleaning the school room for the purchase of records.

In several of the schools, the pupils are buying War Savings Stamps and Thrift Stamps.

A Junior Red Cross has been organized in one district; thus the children are taught lessons in patriotism ,and are encouraged in doing their part in winning the war.

We would call your attention to the superintendent's report for further details.
